

The West Point Fire Protection District Board of Directors would like to announce the departure of Bryce Randell, Bryce has served on the West Point Fire Protection District board of directors for several 4-year terms. He served the board and the West Point community in a very professional manner. His business experience was put to good use while he was part of the board and his stepping down is a heartfelt loss. We wish the very best to Bryce on his ongoing endeavors.

As Bryce leaves us, Tim Adams was appointed into his seat on the Board. Tim has been the liaison between the West Point – Wilseyville Fire Fighters Association and the Board for the past two years. You may have seen Tim on a back hoe, as he works for Volcano Telephone. He's been working on the conversion to fiber optics in the area. Tim has lived in West Point his whole life and understands the importance of our fire department, making him a great choice for the board as well as a wonderful asset. We welcome him to the West Point Fire Protection District family.
